SUMMARY

Final-year Diploma in Computer Science student with experience in machine learning, backend development, and database systems, seeking a **24 weeks internship starting September 2026** to contribute to data-driven and backend engineering solutions. I am from Paya Rumput, Melaka.

EDUCATION

Universiti Teknologi MARA (UiTM), Jasin, Melaka

October 2024 - Present

- Diploma in Computer Science, CGPA: 3.76
- Dean's List Award - Semester 2,3

SMK Paya Rumput, Melaka Tengah, Melaka

January 2022 - March 2024

- Sijil Pelajaran Malaysia (SPM), 8A's
- Science Computer

PROJECT

Retail Shop Database System

November 2025 - January 2026

MySQL, Draw.io

- Developed a MySQL database with 3NF normalization to ensure data integrity and reduce redundancy
- Developed ERD and executed **20+ SQL queries**, improving data retrieval efficiency for business operations and resolving 3 system issues

ACTIVITIES AND CERTIFICATIONS

JA Young Enterprise Program

June 2022 - October 2022

Python, Microsoft Excel

- Co-founding a student business to plan and sell products while managing sales tracking and financial records using Microsoft Excel.

freeCodeCamp Python Certification

March 2026 - Present

Python

- Building foundational skills in Python such as loops, conditionals, and data handling through structured coursework.
- Applying Python skills through hands-on challenges and mini-projects, focusing on problem-solving, debugging, and clean code practices.

TestDome Java

April 2026

Java

- Demonstrated proficiency in core Java concepts including OOP, data structures, and problem-solving.
- Completed timed coding assessments evaluating Java programming, debugging, and logical reasoning skills.

HackerRank SQL (Basic)

April 2026

SQL

- Applied SQL to solve real-world querying tasks involving joins, aggregations, subqueries, and data filtering.
- Demonstrated ability to analyze structured data, optimize queries, and extract meaningful insights from relational databases.

EXPERIENCE

Zawati Optometrist SDN. BHD.

March 2023 - September 2023

- Working as Customer Service Assistant at Zawati Optometrist SDN. BHD. as a part timer.
- Assisted in customer service operations, managed and updated customer databases, and supported administrative tasks using Microsoft Excel for data entry, record keeping, and basic reporting.

SKILLS

- Programming: Java, C++, Python
- Web & Backend: HTML, CSS, JavaScript, PHP
- Database: MySQL, xampp
- Tools & Platforms: Microsoft Excel, Microsoft Word, Git, GitHub, Google Gemini AI
